

# NATIONAL CHEMICAL LABORATORIES, INC.

### **SAFETY DATA SHEET**

	Section 1 - Ide	entification				
Product Identifier	CITRUS FLOWER-QUAT Disinfectant, Cleaner, N	lildewstat, Fungicide, Virucide, Deodorizer				
Other means of identification	0234					
Recommended use	Disinfectant.					
Recommended restrictions	EPA Registered Product. For commercial and inc	dustrial use only.				
Manufacturer / Importer / Supp	lier / Distributor Information					
Company Name	National Chemical Laboratories of PA, Inc.					
Address	401 N. 10th Street - Philadelphia, PA 19123					
Telephone	1 (215) 922-1200					
Supplier Email	info@nclonline.com					
Contact	CHEM-TEL					
Emergency Phone	1 (800) 255-3924					
	Section 2 - Hazard(	s) Identification				
SDS Hazards and	d Warnings are based on the undiluted product. F	efer to diluted SDS for Ready-To-Use Hazards a	nd Warnings.			
	Classification	Category				
hysical Hazards	Not Classified					
lealth Hazards	Serious eye damage/eye irritation	2A				
	Skin corrosion/irritation	2				
DSHA defined hazards abel Elements	Not Classified.					
Hazard Symbol						
Signal Word	Warning					
Hazard Statement	0	on				
	Causes skin irritation. Causes serious eye irritati	011.				
Precautionary statement						
Prevention	Wash thoroughly after handling. Wear protectiv		<b>D</b>			
Response	If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash before reuse.					
Storage	Store away from incompatible materials.					
Disposal	Dispose of waste and residues in accordance with local authority requirements.					
Hazard(s) not otherwise classified (HNOC)	None known.					
	Section 3 - Composition/Inf	ormation on ingredients				
Aixture						
Hazardous Components	Ingredient Name	CAS #	%			
	Didecyl dimethyl ammonium chloride	7173-51-5	1 - 3			
	4-Nonylphenol, branched, ethoxylated	127087-87-0	0.1 - 2			
	Alkyl dimethyl benzyl ammonium chloride (C1	2-16) 68424-85-1	0.1 - 1.0			
	Section 4 - First-	aid Measures				
nhalation	Move to fresh air. Call a physician if symptoms of	levelop or persist.				
kin contact	Remove contaminated clothing. Wash with pler Wash contaminated clothing before reuse.	ity of soap and water. Get medical attention if irr	itation develops and persists			
ye contact	Immediately flush eyes with plenty of water for Continue rinsing. Get medical attention if irritat	at least 15 minutes. Remove contact lenses, if prior develops and persists.	esent and easy to do.			
ngestion	Rinse mouth. Get medical attention if irritation	develops and persists.				
Aost Important symptoms	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause					
effects, acute and delayed	redness and pain.					

Indication of immediate medical attention and special treatment	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed
General Information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
	Section 5 - Fire-fighting measures
uitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk.
General fire hazards	No unusual fire or explosion hazards noted.
Specific Methods	Use standard fire fighting procedures and consider the hazards of other involved materials.
	Section 6 - Accidental release measures
Personal precautions, protective equipment and emergency procedures.	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipme and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	This product is miscible in water. Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
	Continu 7 Handling and starses
Dressutions for sofe handling	Section 7 - Handling and storage
Precautions for safe handling	Do not get this material in contact with eyes. Avoid contact with skin. Avoid contact with clothing. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Avoid release to the environment. Do not empty into drains.
Conditions for safe storage, including any incompatibilities	<ul> <li>Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Use care in handling/storage.</li> <li>DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL. PESTICIDE STORAGE: Store in a dry place no lower in temperature than 50°F or higher than 120°F. Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).</li> <li>Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).</li> </ul>
	Section 8 - Exposure control/personal protection
Occupational exposure limits	No exposure limits noted for ingredient(s).
Biological limit values	No biological exposure limits noted for the ingredient(s).
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.
Individual protection measures, s	uch as personal protective equipment
Eye/face protection	If use of product risks exposure to contact, wear safety glasses with side shields.
Skin protection	
Hand protection	Impervious gloves are recommended for prolonged use.
Hand protection Other	If use of product risk exposure to contact, wear suitable protective clothing.
Hand protection Other Respiratory protection	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment.
Hand protection Other Respiratory protection Thermal hazards	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary.
Hand protection Other Respiratory protection	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment.
Hand protection Other Respiratory protection Thermal hazards General hygiene	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking,
Hand protection Other Respiratory protection Thermal hazards General hygiene	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Color	Blue.
Odor	Citrus Flower
Odor threshold	Not available.
рН	7.5
Melting point/freezing point	Not available.
Initial boinging point and boiling range	212 °F (100 °C)
Flash point	None to boiling.
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explo	osive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Similar to water.
Vapor density	Not available.
Relative density	$1.00 \pm 0.01$
Relative density temperature	75 °F (23.9 °C)
Solubilities (water)	Completely soluble.
Partition Coefficient n- octanol/water	Not available
Auto-ignition temperature	Not Available
Decomposition temperature	Not Available
Viscosity	<10 cSt
Viscosity Temperature	75 °F (23.9 °C)

### Section 10 - Stability and reactivity

	Continue 44 Tradical and a link any other		
Products			
Hazardous Decomposition	No hazardous decomposition products are known.		
Incompatible materials	Strong oxidizing agents.		
Conditions to Avoid	Contact with incompatible materials.		
Possiblity of hazardous reactions	No dangerous reaction known under conditions of normal use.		
Chemical stability	Material is stable under normal conditions.		
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.		

#### **Section 11 - Toxicological information**

#### Information on likely routes of exposure

Ingestion	Expected to be a low ingestion hazard.		
Inhalation	No adverse effects due to inhalation are expected.		
Skin contact	Causes skin irritation.		
Eye contact	Causes serious eye irritation.		
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain.		

#### Information on toxicological effects.

Acute toxicity	Not expected to be acute	ely toxic.				
Components		Level	Туре	Code	Species	Results
Alkyl dimethyl benzyl ammonium chloride (C12-16) (CAS 68424-85-1)		Acute	Dermal	LD50	Rat	3560 mg/kg
		Acute	Oral	LD50	Rat	430 mg/kg
Didecyl dimethyl ammonium chloride (CAS 7173-51-5)		Acute	Dermal	LD50	Rabbit (Male / Female)	3140 / 2730 mg/kg
		Acute	Oral	LD50	Rat (Male / Female)	238 / 331 mg/kg
Skin corrosion/irritation	Causes skin irritation.					
Serious eye damage/ eye irritation	Causes serious eye irritation.					
Respiratory sensitization	Not a respiratory sensitizer.					
Skin sensitization	This product is not expected to cause skin sensitization.					
Germ cell mutagenicity	No data available to indi	cate product o	r any components	present at greate	er than 0.1% are muta	agenic or genotoxic.

Carcinogenicity	This could be to consider a data be	carcinogen by IARC, ACGIH, NTP, or OSHA,		
	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.			
Reproductive toxicity	This product is not expected to cause r	eproductive or developmental effects.		
Specific target organ toxicity -	Not classified.			
single exposure				
Specific target organ toxicity - repeated exposure	Not classified.			
Aspiration hazard	Not an aspiration hazard.			
Chronic effects	Prolonged inhalation may be harmful.			
	Section 12 - E	cological Information		
Ecotoxicity		ch is toxic to aquatic organisms and which may cause long-term adverse effects in		
	the aquatic environment.			
Persistence and degradability	No data is available on the degradabili	ty of this product.		
Bioaccumulative potential				
Partition coefficient n-octa	inol / water log (Kow)	Populte
