

MATERIAL SAFETY DATA SHEET

1. Product and Company Identification

Product Name

Sergeant's Household Flea and Tick Spray

CAS#

Mixture

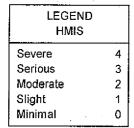

Product use

Household Spray

Manufacturer

Sergeant's Pet Care Products, Inc.

2625 South 158th Plaza Omaha, NE 68130-1770 US Phone: 1-800-224-7387 Fax: 1-402-938-7099 ChemTrec: 1-800-424-9300

2. Hazards Identification

Emergency overview

CAUTION

Harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes and

clothing.

Potential short term health effects

Routes of exposure

Eye, Skin contact, Skin absorption, Inhalation, Ingestion.

Eyes

May cause temporary irritation, tearing, and blurred vision. Mildly irritating, conjunctival

redness clears by 24 hours. (rabbit)

Skin

Can cause skin irritation. Can cause a burning or prickling sensation on more sensitive areas (face, eyes, mouth). Harmful if absorbed through the skin, Slight irritation at 72

hours. Primary irritation Index = 1.4.

Inhalation

Excessive inhalation may be irritating to the respiratory tract. The Acute Inhalation

LC50 of this material places it in EPA Toxic Category IV.

Ingestion

Harmful if swallowed.

Target organs Chronic effects Eyes. Skin. None known.

Signs and symptoms

May cause irritation.

3. Composition / Information on Ingredients

Ingredient(s)	CAS#	Percent
Esfenvalerate	66230-04-4	0.025
Composition comments	Ingredients not identified are proprietary or non-hazardous. Values are not product specifications.	

4. First Aid Measures

First aid procedures

Eye contact

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a

poison control center or doctor for treatment advice.

Skin contact

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20

minutes. Call a poison control center or doctor for treatment advice.

Inhalation

Remove affected person to fresh air. Ir person is not breathing, call 911 or an

ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a

poison control center or doctor for further treatment advice.

Call a poison control center or doctor immediately for treatment advice. Have person sip Ingestion

a glass of water if able to swallow. DO NOT induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious

For skin effects, a highly efficient therapeutic agent for pyrethroid exposure is topical Notes to physician

application of tocopherol acetate (Vitamin E). Diazepam has been recommended to

reduce the CNS effects of Esfenvalerate.

If you feel unwell, seek medical advice (show the label where possible). Ensure that General advice

medical personnel are aware of the material(s) involved, and take precautions to protect

themselves. Show this safety data sheet to the doctor in attendance.

5. Fire Fighting Measures

Flammable properties

Not flammable by OSHA criteria.

Extinguishing media

Suitable extinguishing media Water spray, Foam, Carbon dioxide, Dry chemical,

Unsuitable extinguishing media Not available

Protection of firefighters

Specific hazards arising from

the chemical

Not available

Protective equipment for

firefighters

Firefighters should wear full protective clothing including self contained breathing apparatus. Keep nearby containers and equipment cool with a water stream.

Hazardous combustion products

Under fire conditions this product may support combustion and may decompose to give off toxic gases such as HYDROGEN CYANIDE, carbon monoxide, carbon dioxide and

nitrogen oxides.

Explosion data

Sensitivity to mechanical

impact

Not available

Sensitivity to static discharge

Not available

Accidental Release Measures

Personal precautions

Keep unnecessary personnel away. Do not touch or walk through spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep people away from and upwind of spill/leak.

Methods for containment

Stop leak if you can do so without risk. Prevent entry into waterways, sewers, basements or confined areas

Methods for cleaning up

SMALL SPILL: Stop release, if possible without risk. Dike or contain release, if possible, and if immediate response can prevent further damage or danger. Isolate and control access to the release area. Take actions to reduce vapors. Absorb with appropriate absorbent such as sand, or vemiculite. Clean spill area of residues and absorbent. LARGE SPILL: Stop release, ir possible without risk. Dike or contain release, if possible, and if immediate response can prevent further damage or danger. Isolate and control access to the release area. Take actions to reduce vapors. Collect product into drums, storage tanks, etc., via drains, pumps, etc. Absorb with appropriate absorbent such as sand or vermiculite. Clean spill area of residues and absorbent.

7. Handling and Storage

Handling

Take prudent precautions to avoid contact with skin, eyes, and clothing. Mechanical ventilation should be used when handling this product in enclosed spaces. Avoid breathing vapors or spray mists of this product. Wearing a respirator is not normally required when handling this product, but recommended in the absence of proper mechanical ventilation. Do not contaminate water, food or feedstuffs, by storage, handling or by disposale. Read and observe all precautions and instructions on the label.

Storage

Store containers upright and closed. Store in areas that are cool, dry and well-ventilated. DO NOT allow product to exceed 160°F (71.1°C) as HYDROGEN CYANIDE GAS may be produced. Keep away from strong acids, bases and oxidizers. Emptied container may retain product residues.

8. Exposure Controls / Personal Protection

Exposure limits

Ingredient(s) **Exposure Limits**

Esfenvalerate ACGIH-TLV, OSHA-PEL

> Not established Supplier OEL 2 mg/m3

Mechanical ventilation should be used when handling this product in enclosed spaces. **Engineering controls**

Local exhaust ventilation may be necessary.

Personal protective equipment

Eye / face protection Take prudent precautions to avoid contact with eyes.

Take prudent precautions to avoid contact with skin and clothing. Hand protection

Skin and body protection As required by employer code.

Wearing a respirator is not normally required when handling this product. Use in well Respiratory protection

ventilated areas. Take prudent precautions to avoid breathing vapors and/or spray mists

of this product.

General hygiene considerations DO NOT SMOKE, EAT, OR DRINK, OR APPLY COSMETICS IN WORK AREA!

Wash promptly if skin becomes contaminated. Wash at the end of each work shift and

before eating, smoking, or using the toilet.

9. Physical & Chemical Properties

Liquid. **Appearance**

Percent volatile Not available

10. Chemical Stability & Reactivity Information

Chemical stability Stable under recommended storage conditions.

Conditions to avoid Do not mix with other chemicals

Incompatible materials Strong bases. Strong acids. Strong oxidizing agents.

HYDROGEN CYANIDE GAS may be formed by thermal decomposition at 160°F Hazardous decomposition products

(71.1°C) or higher, or by contact with alkaline substances such as soda ash & lye.

None known. Possibility of hazardous reactions

#16560 Page 3 of 5 Issue date 16-Nov-2006

11. Toxicological Information

Some of all of the toxicity data reported was bridged from a substantially similar formula.

Acute LD50: >1500 mg/kg, Albino Rat, Oral Acute LD50: >2000 mg/kg, Albino Rabbit, Dermal

Component analysis - LC50

Ingredient(s) LC₅₀

Esfenvalerate Not available

Component analysis - Oral LD50

LD50 Ingredient(s)

Esfenvalerate 325 mg/kg rat

Effects of acute exposure

May cause temporary irritation, tearing, and blurred vision. Mildly irritating, conjunctival Eye

redness clears by 24 hours. (rabbit)

Can cause skin irritation. Can cause a burning or prickling sensation on more sensitive Skin

areas (face, eyes, mouth). Harmful if absorbed through the skin. Slight irritation at 72

hours. Primary irritation Index = 1.4.

Inhalation Excessive inhalation may be irritating to the respiratory tract. The Acute Inhalation

LC50 of this material places it in EPA Toxic Category IV.

Ingestion Harmful if swallowed.

Sensitization When applied dermally to albino guinea pigs, this product does not appear to be a

dermal sensitizer.

Chronic effects Non-hazardous by OSHA criteria.

Carcinogenicity None of the components present in this material at concentrations equal to or greater

than 0.1% are listed by IARC, NTP, OSHA or ACGIH as being carcinogens.

Mutagenicity Non-hazardous by OSHA criteria. Reproductive effects Non-hazardous by OSHA criteria. Non-hazardous by OSHA criteria. Teratogenicity

12. Ecological Information

This pesticide is extremely toxic to fish. Do not apply directly to water. Do not **Ecotoxicity**

contaminate water when disposing of equipment wash waters or rinsate. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters, unless in accordance with the requirement of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

13. Disposal Considerations

Waste codes Not available

IF EMPTY: Do not reuse this container. Place in trash or offer for recycling if available. **Disposal instructions**

IF PARTLY FILLED: Call your local solid waste agency or 1-800-CLEAN-UP for disposal

instructions. Never place unused product down any indoor or outdoor drain.

RCRA/EPA WASTE INFORMATION: None of the ingredients in this product appear on the RCRA lists (40 CFR 261.24, 40 CFR 251.33) or CERCLA Hazardous Substance list

(40CFR Part 302 Table 302.4).
